

Worldwide Cystinosis Community Advisory Board

What are the key principles of the CAB?

1. Neutral setting
2. Confidentiality
3. Transparency
4. Sharing
5. Openness
6. Optimisation of research and development
7. A joint action plan as an outcome of the meeting

What is a Community Advisory Board (CAB)?

A group trained of patients and patient representatives who offer their expertise to public or private sponsors of clinical research and early stage researchers.

The same group of patients advises several sponsors in their field.

Agenda and secretariat driven by the patients.

The CAB remains an autonomous and independent board.

What can the CAB offer?

Expertise on:

- patient outreach
- education on research
- clinical studies and their design
- criteria for participation
- informed consent forms and processes
- compassionate use programmes
- better retention of participants
- reporting on results
- autonomy and independence
